PASTOR'S PAGE

Friends,

The Holy Trinity, one God and three co-eternal, co-equal Divine Persons is THE mystery of the universe, and every attempt to make sense of it will ultimately fall short because we are trying to understand something that no human words can truly describe adequately. Analogies aren't much better, since, as a wise priest and good teacher I knew once said, "Analogies will always ultimately break down because they point out a similarity by highlighting a greater dissimilarity." In other words, the only reason an analogy works at all is because we know that we're talking about two totally different things. So every analogy must, in the end, fail.

So instead of trying to define what the Holy Trinity is, maybe we should start by saying what it *isn't*. The Trinity is NOT polytheism. We believe in ONE God, not three. The Father, Son, and Holy Spirit are separate *Persons*, but are not separate deities. And yes, I realize that that is only partially helpful when it comes to making sense of all of this. So what else is the Holy Trinity not? Well, the Trinity is NOT like water, in that water exists in three different forms (water, ice, vapor), because that's actually the heresy of modalism, which states that God is not three Divine Persons, but that He merely reveals Himself in three different forms. This heresy was condemned at the Council of Constantinople in AD 381. The Trinity is NOT like the sun, in that you have the star itself, its light, and its heat. This is a reconstruction of the Arian heresy, which states that Jesus Christ and the Holy Spirit are creations of the Father rather than consubstantial with, co-eternally present with, and co-equal with the Father. The Trinity is also NOT like a three-leaf clover (with apologies to Saint Patrick, who was doing the best he could with what he had), as that can turn into partialism, the heretical belief that the Father, Son, and Holy Spirit are not separate Divine Persons in the Godhead, but are merely different parts (1/3 each) of the one true God. (For the record, Saint Patrick was not a heretic; like I said, he did the best he could with what he had, and I imagine he was very clear with how and where the analogy broke down.) So what are we left with? Well, as another of my seminary professors put it, "Four relations (among the three Divine Persons), three Persons (Father, Son, and Holy Spirit), two Natures (Divine and Human, thanks to the Incarnation of Jesus), one God, and ZERO understanding."

But perhaps one of the best things about the Trinity is precisely that we *can't* understand it using merely human reason; it *requires* faith. This is not to diminish the importance of reason for a moment, simply to point out that the Holy Trinity, by its very nature, forces us to accept our natural limitations and to acknowledge that God is God, and we are not. We are forced to acknowledge that some things require a supernatural explanation, and perhaps for that very reason, they have no explanation that can be adequately expressed in human language. And even if we could, would we dare to ask God to submit to our scientific inquiries and tests? In the end, we are not asked to understand how the Holy Trinity exists or works, simply to accept that it does. I believe that when we reach the other side of the veil of eternity it will make more sense, but that even then, when we see fully even as we are fully seen (1 Cor 13:12), we will still not be able to fully comprehend the infinite magnitude of the Mystery of all mysteries. And that's all right. Because maybe I was wrong about the Holy Trinity being the most confusing of all the mysteries. Maybe the greatest mystery is that the Holy Trinity loves us. And maybe that's what I should focus on instead.

In His Grip,

Fr. David
